CSE 410 - B2 Online

- 1. The camera system remains same as the offline-1.
- 2. Draw the solar system consisting of SUN and three planets MERCURY, VENUS, EARTH (with MOON) in 3D. Use different color for them.
- 3. Each planet will rotate in its ellipsoidal orbit around the SUN. You can show the orbit if you want.
- 4. The moon will rotate in its circular orbit around the EARTH.
